Dear Mrs. Manley:

I had not forgotten my promise to talk further with you about the Negro baseball situation on my trip to New York. However, even now I am not certain how long I shall be in the city or just what the demands upon my time are going to be. It is certain that I shall reach New York before noon Monday. I shall telephone your office not later than noon.

With cordial regards, I am,

Sincerely yours,

William H. Hastie
